

PDF Form Field Test Fixture

*This document exercises every standard PDF AcroForm field type and its common variants.
Use it to test that a form-filling application can read, populate, and submit each field kind correctly.*

Text Fields (Tx)

1. Full Name *(single-line, required)*
2. Email Address *(single-line)*
3. Date of Birth *(single-line, expects DD/MM/YYYY)*
4. PIN Code *(combed, exactly 4 digits)*
5. Password *(masked input)*
6. Comments *(multiline, scrollable)*
7. Reference ID *(read-only, pre-filled)*
8. Attachment *(file-select flag enabled)*

Choice Fields (Ch)

9. Country *(dropdown / combo box)*
10. Favorite Color *(editable dropdown; type a custom value)*
11. State / Region *(list box, single-select)*
12. Hobbies *(list box, multi-select)*

PDF Form Field Test Fixture (cont.)

Button Fields (Btn) — Check Boxes

13. Subscribe to newsletter

14. I accept the terms and conditions *(required, unchecked by default)*

Button Fields (Btn) — Radio Groups

15. Gender

Male Female Other Prefer not to say

16. Preferred contact method

Email Phone Postal Mail

Button Fields (Btn) — Push Button

17. Submit *(push button; no submit action wired up)*

Signature (stand-in)

Note: this fixture does not include a cryptographic /Sig field (digital signature), since those require a certificate to be created meaningfully. The field below is a plain text field standing in for a "sign here" text capture, useful for testing signature-line UI.

18. Signature (type full name)
